Chapter 309: A New Magical Girl?

Saturday morning, we went to the 59th floor of the Tower of Sunrise.

"Wait for a moment here, everyone."

"Eh? What is it?"

"It's dangerous if the boss does an area attack or something like that."

"U-, Un."

It seems like Aya also understands.

I head towards the 60th floor by myself.

"Sloww!! Why didn't you climb up immediately!?"

A small girl, who looks like a high-school student, was floating.

Although I say small, it's not the age, but the size.

"What are you?"

"What do you think I am? "

I don't get it.....

It's because the [Appraisal] isn't working.

When I tried to use [Appraisal], the magic failed.

The shield that the Devil race had has also obstructed the magic, but this time, it seems to be different again.

It seems like the [Appraisal] magic itself is not invoking for some reason.

And then, from this fellow, I sense some kind of pressure for some reason.

"When at the extent that the [Appraisal] doesn't work, it pathetically makes you tremble, doesn't it!?"

Shit, the information has been seen through.

Just what the heck is this girl!

"If the girls waiting down below see the current you, they may feel disillusioned."

You're even aware of Aya and the others!?

Did expressly leaving them down below backfire!?

"Hey, Maruyama Seiji-kun of OO corporation."

What did you say!?

To even know such a thing, how!?

"Well, enough messing around....."

Is she coming!?

Boss fight!?

"A quiz! Who am I?"

Q-, Quiz!?

Whatever, let's take a guess.

There were several hints from our conversation so far.

"You are..... [Information Magic]'s Spirit, right?"

"A big check!! How did you know?"

"There are eight towns in this country. One in each cardinal and ordinal directions respectively.

There are mana crystals of attribute magic in the cardinal directions and in the three among the towns in the ordinal directions, there are mana crystals of non-attribute magic.

And the only mana crystal unconfirmed——

is just the Ikebu town's.

Then, the mana crystal that I haven't found yet among the magics that I know is just the [Information Magic]'s.

From the things I've mentioned above, I've inferred that there's a mana crystal of Information Magic in Ikebu town.

And if there's a mana crystal in Ikebu town——

That place, a place where no one has ever reached before, there's only this top floor of the [Tower of Sunrise].

And in there, was an existence, who knew all of my information, there's no one like that except the [Information Magic]'s Spirit."

"Check, check, big check——!! Amazing, precisely as I expected, the information analysis ability is cut above the rest!"

When the Spirit said so, that pressure of sort enveloping the place vanished.

"How is it? The terror of not knowing what kind of person your opponent is, did you understand?"

"Yeah, I didn't expect it, although this time's [Appraisal] didn't work, such a situation where the [Appraisal] is being used by the opponent, it's so scary."

"That's right, that's right~. Did you understand the dreadfulness of [Information Magic]?"

"Yeah."

"Yes, there's an understanding person, it's such a happy thing~. The people of this world don't understand the dreadfulness of something called [Information Magic] that much, you know~? Same goes with my fellow Spirits, too and there's even guy, who said I'm useless~."

I see, I was being tested if I understood the value of information, huh. Being an SE isn't just for show!

"Well then, let's do a proper self-introduction. I'm.....[Magical Girl Oracle-chan]<3!"

"It's a lie!"

I reflexively tsukkomi'ed with the fastest speed.

"It's not a lie~. I can use magic~, and I'm a girl~, and my name is [Oracle]! See? It's [Magical Girl Oracle-chan], right?"

It's a somewhat troublesome Spirit~.

"Then, uh, there's something I'd like to ask [Oracle-chan-san], but is it okay?"

"It's fine~. It's that black thing on Yurie-san's thigh, isn't it?"

"Amazing, as expected of Information Magic's Spirit, you know everything, huh."

"I don't know everything, you know~."

If not everything, she'll probably say that she knows every nook and cranny, won't she?

"Now, now, more importantly, form a [Spirit Contract] with me."

There's somehow a bit of reluctance, but oh well, I'll be able to strengthen [Information Magic].

When Oracle-chan-san kisses my forehead.....

[[Information Magic] has become level 6.]

the so-called announcement was heard.

Yes, I did it!

"I want to visit the mana crystal next, but is it okay?"

"The mana crystal is this way."

When Oracle-chan-san gently flew and approached a wall, the entire wall split into left and right, exposing a mana crystal shining in golden color.

"Well then, go on."

Urged on, when I touched the mana crystal.....

[Information Magic was updated to the latest version.

[Vigilance] updated.

Perception range was expanded.

Opponents causing danger will now be automatically [Appraised].

[Map] updated.

It's now possible to import information if it's an authentic map.

[Appraisal] updated.

It won't be sensed with magic power perception anymore.

Guilt was added to the read information.

[Concealment] updated.

It now blocks tracking by means of magic.

[Tracking] updated.

It's now possible to remotely control the beacons.

[Language Acquisition] updated.

Languages are now acquired automatically.

[Increase Skill Mastery Rate] updated.

Increase rate has increased.

[Summon Oracle] was added.]

Ohh!

Amazing, there's like a lot of things!

First is the [Map], there are lots of [authentic map] on Earth.

Isn't it possible to import all the information of Google Map!?

Next is tracking.

Moving the beacon?

When I tried it for a bit, it seems that it can be controlled like a drone.

Its travelling speed is slow, but this is quite convenient!!

Finally, it's [Summon Oracle].

"Oracle-chan-san? What kind of magic is [Summon Oracle]?"

"What's that!!? Just now, [chan-san], you said. If you don't call me [Oracle-chan] properly, I won't tell you!"

Troublesome~.

"Oracle-chan, please tell me....."

"Alright! I'll tell you then. My magic is..... the magic that loads magic power into a magic stone, producing a new magic stone."

"Oh, that's great!"

Isn't it creating various magic stones as much as you like?

Chapter 310: Operation Roller

I obtained a new [Information Magic] and was in high spirits.

Now, what shall I do with this new power!

I imagined sort of things.

"Ah, onii-chan, found you."

Aya and the others came.

"Aya, what happened? I told you to wait down there."

"Since onii-chan didn't come back quickly, we were thinking whether you have died or what and came here to look at the situation."

"Seiji-sama, Aya-san was very worried."

"Wait, Elena, I wasn't worrying!"

Seriously now, it's impossible for Aya to be worrying about me, perhaps, Aya was behaving misleadingly.

"Ah, you guys are Aya-chan, Elena-chan and Hilda-chan, huh. I wanted to see you."

Oracle-chan speaks to the three people.

"Eh? Who's this girl? She's small!"

"I'm not small because among the Spirits, I'm big!"

"It's Spirit-sama!"

Hearing that it's a Spirit, Elena and Hilda knelt down immediately.

"Right! I'm the Spirit of [Information Magic]. It's Magical Girl Oracle-chan~."

"Oracle-chan is small and cute! Are those clothes sailor uniform?"

"I've told you already, I'm not small! These clothes were made using your world's clothes as a reference~."

Even though Elena and Hilda are kneeling, Aya is so over-familiar.

"It's also good to be respectful like Elena-chan and Hilda-chan, but like Aya-chan, it's also better to talk like a friend."

"By any chance, Oracle-chan doesn't have any friends?"

"Who's a loner!?"

"Well then, I'll be a friend of Oracle-chan."

"Aya-chan, did you not hear what I said? Well, friends... alright, you may."

Elena and Hilda were looking at Aya's behavior with dumbfounded expression.

"Now then, you guys may visit the mana crystal, too."

"Is it fine?"

"You guys are using the smartphone that were given to you in Seiji's world, aren't you? If you guys were using information familiarly like that, you will certainly be able to acquire [Information Magic]."

"Y-, Yes, I'll certainly meet your expectations."

Elena, you're stiff.

Toward such a gal-like Spirit, you don't need to humble yourself like that.

With this and that, the three people visited the mana crystal.

Aya acquired [Information Magic] level 2 while Elena's and Hilda's were level 1.

With this, the three of them will be able to acquire [Caution] magic. This is good.

"By the way, Oracle-chan, now that everyone acquired [Information Magic], can you now tell me about the matter regarding Yurie-san?"

"Oh well, I'll tell you! To tell you the truth, that black thing is a magic tool used to imprison Spirits."

"Imprison Spirits? Then, is there any Spirit imprisoned inside?"

"That's right, which Spirit do you think is imprisoned?"

Listening up to here, it's easy to guess,

"It's [Darkness], isn't it?"

"Yes, that's right, the [Darkness Spirit] is imprisoned inside that black thing. As for making the [Appraisal] ineffective, it's the [Darkness Spirit]'s power."

Like, using it to catch a Spirit, those guys of the Devil race are quite troublesome.

"In other words, if we released the imprisoned [Darkness Spirit], Yurie-san will go back to normal?"

"Right, just as you said~."

"What should we do to release it?"

"We need various things and follow the necessary steps. There should be something called [Altar of Darkness] inside the stronghold of the Devil race. We need to locate that first."

"The stronghold of the Devil race, huh. If I remember correctly, the Devil race is residing somewhere in the north, right?"

"That's right, but I also don't know anything aside from it being somewhere in the north."

Hmmm, I should've located the stronghold of the Devil race beforehand.

Well, it's useless even if I say it now.

"I should hurry and look for it, huh."

"Onii-chan, I will help, too."

"I will help, too!" "Me, too!"

With that said, among the places we could go to, we went to the northernmost one.

That place is the [Sekabu Village].

There are probably a lot of people who had forgotten it. This place is thought to be destroyed by the Demon King's Army, but the truth is, the village was occupied by the Goblins.

"Onii-chan, are we going to search for the Devil race's town from this place?"

"That's right. We'll split up around 1 km apart from each other and all search northwards at the same time. It's Operation Roller."

Actually, I'd like to do it with a remote-controlled [Tracking Beacon], but since

the movement speed of the [Tracking Beacon] is about the same as walking-speed, it would take time.

"If you find anything, take out a handkerchief and wave it to inform me and I'll rush over immediately. Well then, let's start searching!"

""Yes!""

I sent each of them to their respective starting point and with the four of us, the Operation Roller began northwards.

The Operation Roller began and the four of us had differences in speed.

The fastest one is naturally me.

Since I'm using [Lightning Speed], I'm picking up a considerable speed.

Second is Aya.

Although she's exerting herself to some degree, her speed is about half of mine.

Elena and Hilda are moving at approximately the same speed, about more than half of Aya's.

I'm hesitant to make a girl act alone inside a forest, but the monsters inside this forest aren't that much strong and everyone's level has risen considerably, too, so they should be alright.

When I'm thinking about such things, Aya is fighting against a tiger-looking monster.

Is she going to be alright?

Aya defeated the tiger-looking monster with ease and put the monster's corpse in the [Storage Bracelet].

She seems to be alright.

When the search continues for a while, I've seen Elena suddenly stops, takes out a handkerchief and waves it.

I stopped searching and rushed over to where Elena is.

"Elena, is something up?"

"Seiji-sama, please look at this."

When I tried to look at the ground where Elena pointed at, there was a leaf

that looked familiar for some reason.....

What’s this?

When I tried to use [Appraisal],

└─<Appraisal>──

|【Mandrake】

|A plant which root can become an ingredient for various medicines,
|especially, using it when the root is dried.

|Rarity: ★★★★★

└──────────

Among the ingredients of the Elixir, it’s the ingredient that became a bottleneck.

Moreover, this [Mandrake] has grown en masse with a considerable number.

If I use the [Earth Magic Stone] to nurture the [Mandrake], wouldn’t I be able to make Elixir as much as I’d like?

I patted Elena, who found it, a lot.

However, we weren’t able to find the stronghold of the Devil race with today’s search in the end.

Chapter 311: Summon Oracle

Dinner time came and we returned home.

In the end, we weren't able to find the Devil race's town.

"Onii-chan! Why did we return home? Let's pull it together until we found it!"

"It's no good to make a girl search in a forest at night by herself."

"I'm fine!"

"Well then, do you want to continue to search alone, Aya?"

"A-, Alone?on second thought, let's stop."

What, you're afraid of being alone after all?

You have a long way to go, you're still a child~.

"Since I made a [Tracking Beacon] fly a short while ago, the beacon will search while we're not."

"Oh? A Beacon can be made to fly?"

"After I visited the mana crystal, it can fly now. In addition, the various things I can do has increased."

"*Heh*, what kind of things you can do now?"

Alright, I shall show you my greatness!

"Watch me do it~! [Summon Oracle]!"

"Seiji! To summon me immediately..... ah! Isn't this place Seiji's world? Whoah, amazing!!"

As soon as she is summoned, Oracle-chan flies around the entire room, clamoring.

"Ah! Oracle-chan! Welcome to my house!"

"Ah, Aya-chan! This world is wonderful, huh!"

"That's right, that's right!"

What are you looking so smug about, Aya?

"More importantly, can't you help me in making magic stone?"

"Right, show me the thing called Internet~."

"Afterwards."

"Stingy."

"Seiji-sama, Oracle-sama, are you going to make a magic stone?"

"That's right~."

"That's amazing!"

"That's right, that's right!"

Oracle-chan is making a smug face towards Elena this time.

Somehow, it feels like Aya has multiplied into two.....

"Then, how are we going to make a magic stone?"

"Do you have a Nullpo Magic Stone?"

"Yeah."

I take out a Nullpo Magic Stone.

"First, I will enter inside the [Nullpo Magic Stone] and then, you'll hold the magic stone and use the magic you'd like to record."

"I understand."

Somehow or other, it seems to be like a recording.

After confirming that Oracle-chan has entered inside the [Nullpo Magic Stone], holding the magic stone in hand, I moved about 1 m forward with [Teleportation].

"I've used the magic."

"Yeees."

When Oracle-chan flew out of the [Nullpo Magic Stone], the [Nullpo Magic Stone] began to shine.

"*Oooh.*"

When the light settled down, the Nullpo Magic Stone became more transparent.

When I tried using [Appraisal].....

└─<Appraisal>──

|【Teleportation Magic Stone】

|When loaded with Magic Power,

|If one possesses the skill, Space-time Magic,

|_____

It's done!

It said.....hm? [Specified location]?

I was curious and used the magic stone several times, but.....no matter how many times I've used it, I was [Teleported] to the same place.

"Say, Oracle-chan, does the destination point of this magic stone perhaps fixed?"

"That's right~, since it was recorded with [Absolute Reference], the position has become fixed."

It has such a mechanism, huh.

"Then, there's also a [Relative Reference], right?"

"Oh, amazing, as expected of Seiji, you realized, huh~. However, you better not record [Teleportation] with [Relative Reference]."

"I'm not going to do such a thing because if I'm unlucky, it isn't unlikely for me to end up [inside a stone]."

"It's just as you said~."

When Oracle-chan and I are talking like that,

"Onii-chan, I don't understand what you guys are talking about....."

Somehow or other, it seems to be too difficult for Aya.

"Seiji-sama, I don't understand it that much, was the magic stone completed?"

"Yeah, it was completed. However, it seems it can't be used like my [Teleportation], the destination point is fixed at this room."

"Then, if I have that magic stone, I can go home anytime instantly!"

"Yeah, that's right."

I made magic stones of the same kind for the three and gave one each.

"Yehey! I will be able to go home easily from the junior college with this!!
Onii-chan, onii-chan, make a magic stone that can go to the junior college, too."

"It's definitely no good!"

"Why~!?"

"If you suddenly appear with magic, it will be exposed that you can use magic."

"Ah, I see~."

Don't "ah, I see~" me!

Aya was foolish up to this point.....

It's shameful even though she's my younger sister.

Well, if an [Invisibility] magic stone is made, she can use [Teleportation] without anyone finding out, but stupid Aya didn't realize it.

"Seiji-sama, I have a question."

"What is it, Elena?"

"With the [Teleportation Magic Stone], is it possible to go to the Dolaidos Kingdom?"

I see.....

Elena, you're saying this and that, when actually, you're yearning for your father, the King, huh.....

"Yeah, it's possible."

"In that case, could you make me a magic stone that can go to the church's orphanage in the Royal Capital?"

It was different! It wasn't the King!

"Alright, I understand! I will make as many as you'd like if it's a request from you, Elena!"

Elena is really a good girl!

The King is outside the mosquito net though!

"What about you Hilda, don't you have a magic stone you'd like to be made?"

"The magic stone that can go to Megumi-chan's house, it's no good, isn't it?"

"Yeah, it's no good."

"In that case~, I'd like a magic stone that can go to Rachel-san's, Misha-san's and Cassandra-san's place, is it fine?"

"If that's the case, it's fine. I'll make three especially for you, Hilda."

"Seiji-onii-chan, thank you very much!"

"*Mou*, both of you are unfairrr. Why only mine is no good!?"

Aya looked like a child, who wasn't given a candy; she threw a tantrum, throwing herself on the floor and flailing her hands and legs.

She's completely a child.....

What was Oracle-chan doing while we were having such a conversation, you said.....

She was stuck to the PC, browsing through a lot of various sites while smirking.

Are you a male middle-schooler browsing through an ero-site!?

Chapter 312: Teleportation Magic Stone

On Sunday, the next day, the four of us split up and searched the forest from where we left off yesterday.

However, this forest was quite vast and we weren't able to find it so far.

We are probably searching in the wrong direction.

A short time later, I saw Aya waving a handkerchief in the [Tracking Beacon]'s video.

I promptly rush to where Aya is with [Teleportation].

"Aya, what happened?"

"Onii-chan, look."

Around Aya, there were nearly ten dead orcs.

Somehow, it feels like it's been a while since I last saw an orc.

"These guys, did you kill them, Aya?"

"No, that's not it. They were already dead when I got here."

It's not clear, but it seems there's something that killed the ten orcs, huh.

"Since it seems somewhat dangerous, let's regroup. Let's go meet Elena and Hilda."

"Un."

I took Aya's hand and meet the two.

"Seiji-sama, are we going to move together now?"

"Yeah, it's for safety. The monsters are becoming strong as we advance towards the north."

"Alright."

"Well then, everyone, depart!"

That is to say, in order to move together, the need to adjust to the slowest person arises.

Among the four of us, the slowest is Hilda, but.....

Hilda's speed is faster than I thought.

Why's that?

When I appraised Hilda, the level of her [Body Reinforcement] magic rose from 2 to 3.

Perhaps, the level of [Body Reinforcement] rose thanks to her running about in the forest the last few days.

And Hilda, in order to catch up to us, doesn't neglect to make an effort and makes full use of all her magics.

We pushed the search in forest forward at a moderate speed.

While pushing the search forward for a while,

"Everyone, stop!"

"What's wrong, onii-chan? Is there something up ahead?"

"Yeah."

When we stealthily approached towards where the reaction is, there were two monsters of different type fighting.

It was a [normal orc] and a [black orc].

Somehow or other, it seems to be a situation where the black orc attacked the base of the normal orc.

"Onii-chan, what should we do? Should we attack them?"

"The search will fall behind schedule, but.....they may also attack a person somewhere if left alone. Let's attack them."

The white and black orcs, receiving a surprise attack from the side while fighting, were quickly annihilated as easy as twisting a baby's hand.

"Eh? Were the orcs so weak like this?"

"We became strong since our level rose considerably with the capture of the Tower of Sunrise~."

While putting the defeated orcs into the inventory, we headed towards the

north once more.

"Hmmm, there are only black orcs in this area."

We encountered black orcs many times as we advance towards the north.

By sun set, nearly 100 black orcs were defeated, but our objective, the Devil race's town, wasn't found.

The black orcs wandering around this area look calm, the Devil race's town is probably somewhere else.

[Tracking Beacons] were sent out to search in the forest radially in order to expand the search area and we decided to go home.

"Onii-chan, can I try to use the [Teleporation Magic Stone] to go home?"

"Okay, try it."

Unexpectedly, it's going to be my first time seeing other people use [Teleportation].

"Onii-chan, I'm going!"

Aya grasped the [Teleportation Magic Stone] tightly and poured Magic Power into it.

.....

"Eh? I didn't get transferred?"

"Why?"

"Onii-chan, this is a defective product!"

What's wrong?

Why didn't she get transferred?

"Elena, can you try and test it?"

"Yes!"

When Elena grasped the [Teleportation Magic Stone] tightly and poured Magic Power into it.....

Whoosh!

Along with the sound of the wind, Elena disappeared.

When I checked the [Tracking Beacon]'s video, Elena had returned home properly.

"It seemed Elena could use it properly. Next, you try it, Hilda."

"Yes."

Whoosh!

Hilda could use it, too.

However-!

When I checked the [Tracking Beacon]'s video, Hilda was sitting down on the spot where she had been teleported to at home.

"Hilda's situation is strange. Aya, let's go home immediately."

"Un."

When I took Aya and returned home, Elena was nursing Hilda, who had sat down.

"Hilda, what's wrong!?"

"I-, It seems I've used a lot of magic power."

What!?

When I used [Appraisal] on Hilda—

Hilda's MP had been almost depleted.

"Hilda, eat a candy quickly."

"Y-, Yes."

Hilda ate a candy and recovered her MP; her physical condition somehow returned to normal.

"Hey, onii-chan, why did this happen?"

"It seems the [Teleportation Magic Stone] uses a considerable amount of MP."

"Considerable amount, you say, how much?"

"I think it's around 3, 000. Since Hilda's MP is a little bit over 3, 000, she can barely use it once and since Elena has 7, 000 MP, she can use it twice."

"Then, how about me, how much is my MP again?"

"Aya's MP is around 2, 500."

"I can't use it!?"

After that, as a result of doing various things and experiments—

We found out that the transfer across worlds consumes 3, 000 MP while in the case of the transfer within a world, 1, 000 MP is consumed.

In addition, we also found out that the transfer across worlds can only be used once a day just like mine previously.

"Annoying! How can I be the only one who can't use it!"

Aya was stamping her feet in frustration.

"You'll be able to use it if you're in Earth. Besides, isn't 2, 500 MP also a lot more than an ordinary person's?"

"I also want to go back and forth between Earth and the other world! Onii-chan, how can I increase my MP?"

"It will increase when the level of your magic increases."

"How can I increase the level of my magic?"

"By studying."

"T-, That~."

Chapter 313: Acquiring Japanese Language

[While having dinner, I was watching the state of the [Tracking Beacon] searching for the Devil race's town.

"Onii-chan, the Devil race's town wasn't found in the end, what should we do?"

"Since I have work on weekdays, I can only survey the area with [Tracking Beacons]."

"Shall I survey the area?"

"Aya, could you return here without [Teleportation Magic Stone]? If something happen, what will you do?"

"Riled up."

According to the appraisal result of the [Teleportation Magic Stone], if one possesses the skill, [Space-time Magic], it can decrease the MP consumption.

I should ask [Toki] if Aya and the others can acquire [Space-time magic].

After having dinner, I summoned [Toki] in my room.

"*Mu?* You don't seem to be in the middle of a battle, but what's your business, Human Seiji?"

"Honestly, I want to have my friends acquire [Space-time Magic], but I want to get your permission."

"....."

I wonder what's wrong, [Toki] had been lost in thought.

"It's probably impossible."

"Impossible? What do you mean?"

"You should've probably experienced studying about space and time, right?"

Hmm, studying about the space and time?

Come to think of it, I do this type of examination often at work.

With regards to [Time], I often test the performance until the processing is

completed.

Afterwards, I handle a great deal of data in time with night batch processing, review the database design to improve the processing speed, review the logic of the processing itself.....

And with regards to [Space], I've been in charge of systems related to cartographic information and GPS.

Afterwards, I studied about things like 3D polygon display, too.

"Don't tell me, [Space-time Magic] can't be acquired if one hasn't studied this type of things?"

"That's right."

I see~.

This seems to be a bit impossible for Aya and the others.

[Toki] went back apologetically.

Well, there's nothing to be done for something impossible.

Until Aya's MP exceeds 3, 000, I won't allow her to act alone over there.

Then, changing the mood, I summoned [Oracle-chan] after [Toki].

"Woohoo, it's Seiji's world~. Can I use the internet again?"

"After you help me in making a magic stone."

"Woohoo."

This fellow, she suddenly became easy to handle after knowing the amusement of the net.

"So, what kind of magic stone are we making today?"

"I plan to make a [Language Acquisition Magic Stone] today as a test."

"Alright."

[Language Acquisition] assigns and implements two elements, the [language to acquire] and the [acquisition level].

If this is made into a magic stone, are both elements fixed? Or is it different? The objective this time is to ascertain that area.

"About [Language Acquisition], is it possible to reacquire a language you've

already acquired?"

"It's possible~."

"Alright, well then, let's try it out with Japanese language acquisition."

I have Oracle-chan enter inside the Nullpo Magic Stone and executed the acquisition of Lvl 5 [Japanese language].

└─<Appraisal>──

| [Language Acquisition Magic Stone]

| When loaded with Magic Power,

| the specified language can be acquired.

| When one possesses the skill, Information Magic,

| it can decrease the MP consumption.

| Rarity: ★★★★★★

└──────────

It's completed.

If I make Elena and Hilda use this, the level of the two's Japanese should rise. Let's try it out right away.

"Elena, Hilda, try out the new magic stone I made."

""Yes.""

I first handed the magic stone to Elena.

It's because I don't know how much MP it will consume.

That's why Elena, who has a lot of MP, is the first one to try it.

"Ah, Oracle-chan has come. Welcome."

Aya heard our conversation and came out of her room.

"Alright, well then, try using the magic stone very carefully."

"Yes!"

Elena focused her mind and poured Magic Power into the magic stone.

The magic stone worked without a problem and Elena acquired the level 5 Japanese language.

When I tried to appraise her, the MP consumption was 2,000.

The MP consumption has become twice of the amount when I used it.

Is this because the level of Elena's Information Magic is low?

"How is it, Elena? Aren't there any changes?"

"Uh, Seiji-sama, what kind of magic stone is this in particular?"

"That reminds me, I forgot to tell you what kind of magic stone it is! This is a [Language Acquisition Magic Stone]. Aptly named, the level of your Japanese should've become 5."

"Eh?"

Elena opened the books about science and the like that she has always been studying and started reading them.

"Seiji-sama, I can also read the complicated kanji characters smoothly!"

"I see! It's a success. Well then, what about writing the characters?"

"I'll give it a try."

Elena took out a notebook and started writing.

"Let me see..... about that, I can write the characters very skillfully!"

"Yes, somehow, it reached the point where you can tell what character is which!"

There was also an ability to write characters skillfully in Language Acquisition, huh!

I didn't know that.

Hm? Wait.

I also wrote characters on the notebook as a test.

"Ah, onii-chan, was your handwriting this good before?"

"No, it became good just now."

"What do you mean?"

Somehow or other, it seems that the previous level of my Japanese didn't reach level 5.

Even though I'm a Japanese..... oh well, it can't be help since it's a complicated language!

When I explained it to Aya,

"Me, too!!"

and then, she selfishly snatched the magic stone from Elena and poured magic power into it.

"Ugh, my head....."

"It's the overuse of magic power."

When I tried appraising her, Aya's MP had been decreased by around 1,700. Since the level of Aya's Information Magic was level 2, it seemed that the MP consumption adjusted according to the skill's level, becoming lesser than when Elena used it.

Afterwards, I had Hilda use it, too and the four of us succeeded in raising the level of our Japanese to level 5.

"Hey, onii-chan. Make a Language Acquisition Magic Stone for English, too."
"Go study!"

"T-, That~."
